

MCut-90A

Manual /Auto Abrasive Metallographic Cutter
(Cutting Capacity:90mm)

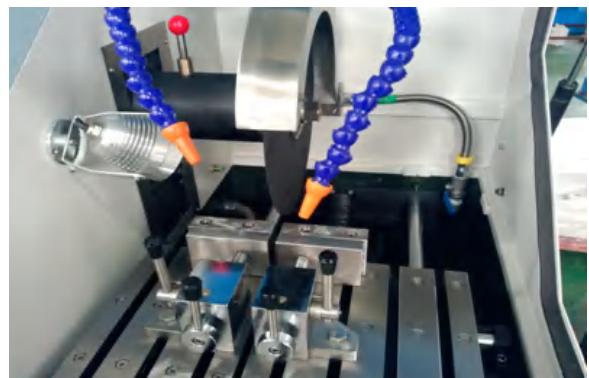

Product Feature & Application

Product Feature

- Manual / automatic precision cutting machine.
- Z-axis manually adjusted, suitable for various sizes cut-off wheels, effectively improving the utilization rate of cut-off wheels.
- Y-axis and X-axis can be both manually and automatically controlled accurately.
- Y-axis automatic intelligent feeding, cutting speed can be automatically adjusted according to the hardness of the material to avoid blockage.
- X-axis automatic table can achieve the continuous thin slice cutting of the sample.
- The machine body is made of thick sheet metal.
- With explosion-proof transparent observation window and protection of cover opening, it is safe and reliable.
- With powerful exhaust fan, it makes observation more clear.
- Adjustable LED lamp to achieve effective lighting for the whole cutting chamber.
- Electro-mechanical separation structure, effective in protecting electrical safety and convenient in maintenance.
- With double-sided quick clamping vise and T- slot cutting table.
- With gas spring support, limit switch and emergency stop button for safe use.
- Three adjustable cooling water lines can prevent sample burns.
- Independent cleaning water gun.
- The mobile magnetic circulating cooling water tank has effective filtration and can prevent sample burns.
- 10 inch high-definition color touch screen, visual display and easy to operate.

Machine Mainframe

Cutting Chamber

Magnetic Circulating Cooling Water Tank

Product Application

This machine is suitable for the sample cutting of various shapes, sizes and materials, the surface of the sample after cutting is bright and flat without burns, thus it is the ideal equipment for sample cutting. It is suitable for various ferrous metals, non-ferrous metals, heat treatment parts, forgings, semiconductors, crystals, ceramics and rocks etc.

Flexible Cutting

Both manual / automatic precision cutting machine. Z-axis manually adjusted, suitable for various sizes cut-off wheels, effectively improving the utilization rate of cut-off wheels. Y-axis and X-axis can be both manually and automatically controlled accurately. Y-axis automatic intelligent feeding, cutting speed can be automatically adjusted according to the hardness of the material to avoid blockage. X-axis automatic table can achieve the continuous thin slice cutting of the sample.

Z-axis Manual Adjusted by Rotating Handwheel(left)

Y-axis Manual/Auto Adjusted by Rotating Handwheel

Cutting Observation

With explosion-proof transparent observation window and protection of cover opening, it is safe and reliable, easy to change cut-off wheel, With powerful exhaust fan, it makes observation more clear. Adjustable LED lamp to achieve effective lighting for the whole cutting chamber.

Technical Specification

Product Name	Manual /Auto Abrasive Metallographic Cutter
Model	MCut-90A
Cutting Method	Manual/Automatic, Y axis Table feeding
Cutting Mode	Continuous Cutting, Pulse Cutting
Feeding Speed	Manual / Automatic 1~240mm/min
Cut-off Wheel	Φ300×2×Φ32mm
Max. Cutting Capacity	Φ90mm
Y Axis Travel	260mm
X Axis Travel	40mm
Z Axis Travel	50mm
Spindle Speed	500~3000r/min
Electromotor Power	4kW
Cutting Table	435×300mm, T-slot 12mm
Clamping Vise	Quick Clamp, Jaw Height 60mm
Display and Control	10 inch Touch screen
Power Supply	380V, 50Hz, 12A, Three-phase five-wire
Dimensions	910×935×1350mm
Net Weight	430kg
Water Tank Capacity	80L
Pump Flow	50L/min
Water Tank Dimensions	610×550×680mm
Water Tank Weight	85kg

Variable Cut-off Wheels Optional

Series	Name	Material	Application	Specification
Series A	Alumina Cut-off Wheel A2: 45~55HRC A3: >55HRC	Aluminum oxide (Brown corundum) Resin bond	For cutting of common steel materials, carbon steel, alloy steel, cast iron, unquenched steel, etc.	(250×1.2×32)(250×1.5×32)
				(250×2×32)
				(300×1.5×32)(300×2×32)
				(350×2.5×32)
				(380×2.8×32)
				(400×3×32)
Series B	Alumina Cut-off Wheel B2: 45~55HRC	Aluminum oxide (White corundum) Resin bond	For cutting of high-quality carbon steel, alloy structural steel, tool steel, bearing steel, stainless steel, high-speed steel and high hardness quenched steel, etc.	180×1×22
				205×1.2×32
				(250×1.2×32)(250×1.5×32)(250×2×32)
				(300×1.5×32)(300×2×32)
				(350×2.5×32)
Series C	Silicon Carbide Cut-off Wheel	Silicon Carbide Resin bond	For cutting of non-ferrous metal materials (copper, aluminum, zinc, titanium, cast aluminum, tungsten-molybdenum alloy, cemented carbide, etc.) and non-metallic brittle materials (glass, ceramics, rock, etc.).	(250×1.2×32)(250×1.5×32) (250×2×32)
				(300×1.5×32)(300×2×32)
Series D	Alumina Cut-off Wheel D2: 45~55HRC	Aluminum oxide (Chromium corundum) Resin bond	For cutting of high vanadium high speed steel, alloy steel, tool steel, and high toughness, high viscosity, burn-prone materials, etc.	(250×1.5×32)(250×2×32)
				(300×1.5×32)(300×2×32)
Customized	Alumina Cut-off Wheel (Red sand)	Aluminum oxide Resin bond	For cutting of hard ferrous metals. (60HRC)	(250×1.2×32)(250×1.5×32) (250×2×32) (300×1.5×32)(300×2×32)

Variable Cutting Discs Optional

Series	Name	Material	Application	Specification
Ultrathin Precision Cut-off Wheel	Diamond Cut-off Wheel	Diamond Bronze bond	For cutting of plastics, rubber, dental orthopedic materials, high hardness ceramics, glass, electronic components, printed circuit boards, non-ferrous metal materials, rocks, non-ferrous composite materials, etc.	(100×0.7×12.7)
				(180×0.8×22)
				(200×1×32)
				(250×1.2×32)
				(300×1.5×32)
	CBN Cut-off Wheel	CBN Resin bond	For cutting of iron-based metals, super alloy materials, cobalt-based alloys, nickel-based alloys, high-carbon alloys, high-speed steel, tungsten-molybdenum alloys, heat-resistant alloys, cast magnets, titanium alloys, etc.	(100×0.7×12.7)
				(180×0.8×22)
				(200×1×32)
				(250×1.2×32)
				(300×1.5×32)
	Petrographic Cut-off Wheel	Diamond Bronze bond	For cutting of petrographic materials.	(250×2×32)
Saw Blade	Toothed Saw Blade	Cemented carbide	For cutting of aluminum, aluminum alloy and other high viscosity materials.	(180×1.8×25.4)
				(200×2×32)
